

# Perfection in Timber.

## Getting better every day: HS Timber Productions Kodersdorf sawmill

HS Timber Group acquired the sawmill in Kodersdorf, Germany, in 2015 and has since continuously invested in increasing value addition at the plant.

Today it produces lumber and planed timber products from sustainably sourced wood. The high-quality products are appreciated by industrial customers in more than 30 countries worldwide and are especially sought for the US and Japanese housing industry.

„Our factory has grown steadily since taking over in 2015. Due to modern production processes and our excellent workforce, we are once again able to exceed the expectations of our customers.“

**Thomas Kienz**  
General Manager  
HS Timber Productions Kodersdorf

HS Timber Group is one of Europe’s leading wood processing companies. The company operates one modern sawmill, a post and beam production, and one blockboard factory in Romania as well as a sawmill in Kodersdorf, Germany and one in Luvia, Finland. Its high-quality timber products are available in more than 70 countries worldwide.

### Did you know that...?

... *planed timber* is primarily used in construction, for both interior and exterior works? It is ideal for fencing, building frames, or making garden furniture.

... *sawn timber* can be used for carpentry products, windows and doorframes that require painting, exterior lining and interior panels?

### Kodersdorf sawmill: facts and figures

Acquired in	2015
Plant size	38,44 ha
Cutting (log input)*	1.2 million m <sup>3</sup>
Planing (input) *	430,000 m <sup>3</sup>
Kiln drying*	600,000 m <sup>3</sup>
Pellets*	198,000 t
Hot water boiler*	20 MW <sub>therm</sub>
Combined heat and power plant*	5 MW <sub>el</sub> /15,5 MW <sub>therm</sub>
Produces	sawn timber, planed timber, pellets, green energy
Processes	fir, spruce, pine
Exports to	USA, Germany, Austria, Romania, Japan

\* Production capacity per year

### Green energy for Kodersdorf Sustainable investments

The Group invested € 24 million in the construction of a state-of-the-art biomass cogeneration plant (heat and power) in Kodersdorf. The plant powers all production processes within the sawmill, excess electricity is fed into the grid, thus supplying private households with sustainable, green energy. With focus on resource- and energy-saving technology the company also invested on pellets production facilities and energy-saving drying systems.

### CSR at a glance: Tomorrow’s Forest

HS Timber Group and the Tomorrow’s Forest Foundation have forged a strategic partnership for joint implementation of environmental and social projects that promote responsible development of Romanian forests and benefit Romanian forestry communities. By entering into this strategic alliance, the HS Timber aims to implement the company’s CSR commitment more purposefully and more effectively.
